Dear Gregg,

I wanted to thank you and your team for the beautiful office you built us. Your team was amazing to work with. Your leadership and never quit attitude was the key component in the success of this project. Your team completed this project ahead of schedule and the quality of your workmanship is flawless.

I also wanted to thank you for helping us coordinate this project with the City, Building Ownership, Architect and our Vendors. This process was seamless and the efforts your team made helped me continue to focus on starting our new business without the burden of this coordination. I knew you were handling it, and it you had my best interests at heart.

Please feel free to send any future clients my way and I will encourage them to make the right decision by Hiring Roseen Builders, Inc for their next project. I am thankful I did!

Sincerely and much future success,

James J. Yoon, Ph.D.
