23011 Moulton Parkway D-2
Laguna Hills, CA. 92653

Dear Greg,

Karen and I would like to thank you and Jeff for the wonderful job that resulted in our new office. When we were interviewing contractors to build out our office we were looking for someone who had the experience in medical construction and someone who could produce a finished product that had looked like a custom home instead of a clinic. Your team had that ability and the follow through to make the project a reality. Jeff did a fantastic job of coordinating both the construction trades and the dental suppliers. When I would request something special, the triangle column, Jeff's answer was ok this is going to be difficult but lets figure out how to make it happen. No one but you, your team and us will appreciate the construction challenges that, that column or the sliding leaded glass doors brought but many patients have complemented us on how beautiful the office is. Jeff's thoughtful questions and suggestions helped bring together a beautiful yet functional and durable office.

We have already recommended you to several patients and colleges that are contemplating projects that require professionalism and performance.

Thank you again, coming to work, in this office, is a pleasure and we appreciate all you and your team have done.

We wish you much luck in the future.

Martin Writer, D.D.S., M.S.D
